## Atruim, Rotunda, main corridors

Dimension/S F

Original Use

Atruim, Rotunda,  
main corridors

Preservation Level I

Notes Includes the 3rd and 4th floor corridors, 380 and 470 respectively.

**Element Code B-1**

Element Code Gray marble base, 12" polished

Historical Significance Very Significant

Condition Good

Repair/Replace No

Quantity

Notes This base is found in the corridor areas on the 1st - 4th floors. The atrium area in the Rotunda has a marble base included in the wainscot. Because of past remodels, this base has been removed and added to new/original walls. No system or order was discovered to where the base was moved to.

**Element Code BA-17**

Element Code Corbel Bracket capitol

Historical Significance Very Significant

Condition

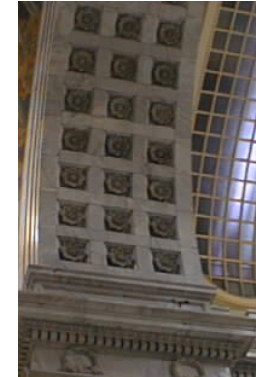

Repair/Replace

Quantity

Notes West side of the South West Rotunda pier at a formal hall entrance. No others have been noticed.

**Element Code BA-02**

Element Code Cased marble arch, coffered underside, flower medallions

Historical Significance Very Significant

Condition

Repair/Replace

Quantity

Notes The main archways in the Rotunda are made of marble - the rosettes are terra cotta. This design motif is continued in the archways over the 4th floor doors to the Rotunda piers. The rosettes in this case are plaster.

**Element Code CL-02**

Element Code Skylight, flat, with wired glass and muntens BA-16

Historical Significance Very Significant

Condition Poor

Repair/Replace No

Quantity 2

Notes in East and West halls

**Element Code CL-03**

Element Code	Skylight, round vault w/ wired glass
Historical Significance	Very Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	Barrel arch

**Element Code CL-04**

Element Code	Plaster ceiling, smooth, flat, painted
Historical Significance	Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	top of the drum area, painted with sky and seagulls. Seagulls added at a later date.

**Element Code CPP-1**

Element Code	Gray Georgia marble column, polished, monolithic, on tripartite pedestal
Historical Significance	Very Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	Main Columns within atrium/Rotunda space.

**Element Code CPP-19**

Element Code	Gray Georgia marble post, solid
Historical Significance	Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	Solid - in the 1st floor corridor.

**Element Code CPP-2**

Element Code	Gray Georgia marble post, hollow
Historical Significance	Very Significant
Condition	Good
Repair/Replace	No
Quantity	
Notes	reveal between stones, 1 1/2" wide, recessed 3/4". First corridor

**Element Code CPP-3**

Element Code	Marble column, short
Historical Significance	Very Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	Columns lining the North and South sides of the Rotunda.

**Element Code CPP-3**

Element Code Marble column, short

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes Columns lining the North and South sides of the Rotunda.

**Element Code CR-16**

Element Code Stone Entablature

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes with various marble banding, large dentils, egg & dart, wolf head motif. Found in the Drum area of dome - Lower

**Element Code CPP-4**

Element Code Oolite column, painted

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes 3rd and 4th floors only. On the 4th floor, they are in groupings of three. Original to the building though the wall is new. Painted capitols, painted recess in center pilaster.

**Element Code CR-16**

Element Code Stone Entablature

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes with various marble banding, dentils, egg & dart, wolf head motif. Wreaths along flat surface - seem to be holly/oak leaves with berries.

**Element Code CR-18**

Element Code Painted Entablature

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes 4th floor. Contains plaster detailing as seen in the stone entablature - painted with gold leafing. Found in the Corridor

**Element Code CR-7**

Element Code Ornamental band: stenciled panel beneath cornice

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes found on the 1st floor corridors. Gold leaf.

**Element Code F-2**

Element Code Tile floor, hex & square, mosaic

Historical Significance Significant

Condition Poor

Repair/Replace No

Quantity

Notes border has Greek key pattern. Seen only on the 3rd and 4th floor corridors.

**Element Code CR-2**

Element Code Plaster cornice: crown molding, classical and simple

Historical Significance Very Significant

Condition Good

Repair/Replace No

Quantity

Notes 3'-10" height, polychromed. Found in the 3rd floor corridor

**Element Code F-1**

Element Code Gray Georgia marble floor, polished square

Historical Significance Very Significant

Condition Fair

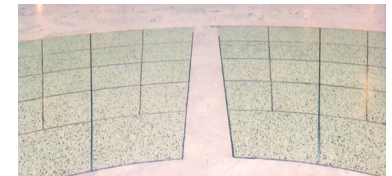

Repair/Replace No

Quantity

Notes variegated inlaid marble patterns. Vermont marble, a darker grey, inlaid between the Rotunda columns. The marble flooring is horizontal tiles laid brick style.

**Element Code F-7**

Element Code Terrazzo floor, light green, with white and black specks

Historical Significance Non-Contributory

Condition Good

Historical Significance	Very Significant
Condition	Good
Repair/Replace	No
Quantity	4
Notes	Seen at the portals to halls behind lunettes, east and west ends of the Rotunda and at, and above the doors to the Rotunda piers on the 4th floor and above the large arch ways forming the Rotunda dome.

**Element Code MS-3**

Element Code	Fire hose cabinet, glass, metal, recessed in wall
Historical Significance	Non-Contributory
Condition	Good
Repair/Replace	No
Quantity	2
Notes	

**Element Code L-19**

Element Code	Brass ceiling lamp, 6 sided, with eschutchion, medallions
Historical Significance	Very Significant
Condition	Good
Repair/Replace	No
Quantity	3
Notes	at entry to Senate, Supreme Court & House

**Element Code MS-17**

Element Code	Wood Bench
Historical Significance	Contributory
Condition	Poor
Repair/Replace	
Quantity	
Notes	There are about 8 benches in the Rotunda area. They have been given a faux finish to resemble the marble. Replacement should be considered

**Element Code MS-5**

Element Code	Corbel, winged animal, ornamental plaster
Historical Significance	Very Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	Some sort of Griffen creature - sits in the 4 corners of the Rotunda

**Element Code P-15**

Element Code Porcelain drinking fountain, free-standing (Crane Corwith)

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes One sits on the East side under the Grand stair landing area.

**Element Code P-2**

Element Code Non-original drinking fountain, wall-mounted

Historical Significance Non-Contributory

Condition Good

Repair/Replace No

Quantity 2

Notes

**Element Code ST-10**

Element Code Grand Stair. Marble risers; newel post, round, polished, with base, shaft,

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes Good condition overall - could use some repair work in various places, marble is wearing. Very Usefull and attractive to the public. The underside of the landing - is being used for sculptural and aesthetic display.

**Element Code ST-22**

Element Code simple stair, metal balustrade with various ornamental medallions.

Historical Significance Very Significant

Condition Good

Repair/Replace

Quantity

Notes 4 sets, 2 East end, 1 North and 1 West. Not visible from Rotunda - not decorative.

**Element Code ST-9**

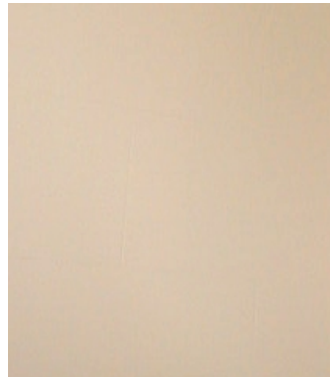

Element Code	Marble balustrade, with newels, caps and railing
Historical Significance	Very Significant
Condition	Good
Repair/Replace	No
Quantity	
Notes	3rd and 4th floors only. The Knewell posts on the 3rd are plain faced, the 4th floor posts have recessed panels.

**Element Code W-2**

Element Code	Oolite slab wall, painted
Historical Significance	Very Significant
Condition	Good
Repair/Replace	No
Quantity	
Notes	Oolite on 3,4th floor corridor with pilasters

## Supreme Court Chamber

Dimension/S F

Original Use

Supreme Court  
Chamber

Preservation Level I

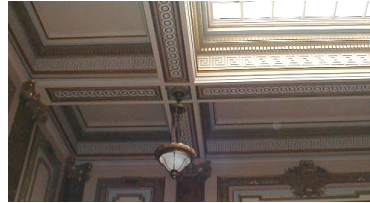

Notes

**Element Code BA-04**

Element Code	Ornamental plaster beam, painted, running ornament
Historical Significance	Very Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	4 intersecting beams, 2 in either direction overlapping around the skylight. They, along with the perimeter of the room could contain an "entablature". The detailing here contains banding, stenciled greek key in gold leaf and paint. Plaster egg & dart, bead & real, wolf head and dentils. The Plaster work is considered the cornice/ if called out seperately from the entablature. The underside of the beams contains a guioche pattern painted and accented in gold leaf.

**Element Code CL-02**

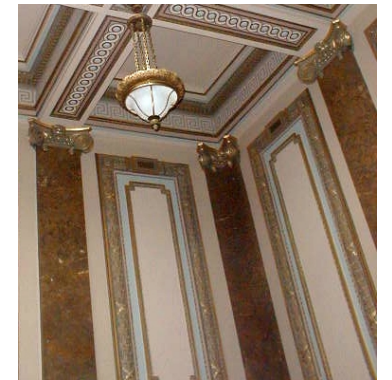

Element Code	Skylight, flat, with wired glass and muntens BA-16
Historical Significance	Very Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	

**Element Code BA-15**

Element Code	Deep coffered ornamental (as BA-14) beam supporting skylights
Historical Significance	Very Significant
Condition	Good
Repair/Replace	
Quantity	
Notes	The intersecting beams create an outline for the skylight. The "entablature" consists of similar detailing to the beam work - painted banding, stenciled greek key in gold leaf and paint. Plaster egg & dart, bead & real, wolf head and dentils. The differing item is the foliated band in gold leaf. The leaf is possibly oak. The skylight sits above.

**Element Code CPP-15**

Element Code	Tapered Golden onyx pilasters with composite capitals with (CPP-16) Composite capitals
Historical Significance	Very Significant
